

SUBDESARROLLO Y REVOLUCIÓN — RUY MAURO MARINI

La historia del subdesarrollo latinoamericano es la historia del desarrollo del sistema capitalista mundial. Su estudio es indispensable para quien desee comprender la situación a la que se enfrenta actualmente este sistema y las perspectivas que se le abren. Inversamente, sólo la comprensión segura de la evolución y de los mecanismos que caracterizan la economía capitalista mundial proporciona el marco adecuado para ubicar y analizar la problemática latinoamericana.

En la presente edición se han incorporado dos nuevos ensayos: *Lucha armada y lucha de clases* y *Hacia la revolución continental*. Ambos contribuyen a precisar mejor las características económicas del desarrollo dependiente, en particular del subimperialismo brasileño, así como a profundizar en las contradicciones de clase que genera.

El trabajo de Marini se ha convertido ya en uno de los puntos básicos de partida o de polémica en la discusión teórica y la interpretación política del presente y el futuro de América Latina.

Subdesarrollo Y Revolucion:

Subdesarrollo y revolución Ruy Mauro Marini, 1969 **América Latina** Andre Gunder Frank, 1980 Historia económica Francisco Bustelo, 1994 **América Latina** Frank Andre Gunder Frank, 1976 América Latina, subdesarrollo o revolución André Gunder Frank, 1976 **América latina** André Gunder Frank (économiste.), 1976 The Dialectics of Dependency Ruy Mauro Marini, 2022-11

A foundational essay of class struggle published in English for the first time. Considered one of the most important intellectuals in Latin American social thought, Ruy Mauro Marini demonstrated that underdevelopment and development are the result of relations between economies in the world market and the class relations they engender. In *The Dialectics of Dependency*, the Brazilian sociologist and revolutionary showed that as Latin America came to specialize in the production of raw materials and foodstuffs while importing manufactured goods, a process of unequal exchange took shape that created a transfer of value to the imperialist centers. This encouraged capitalists in the periphery to resort to the superexploitation of workers under harsh working conditions where wages fall below what is needed to reproduce their labor power. In this way, the economies of Latin America, which played a fundamental role in facilitating a new phase of the industrial revolution in western Europe, passed from the colonial condition only to be rendered economically dependent or subordinated to imperialist economies. This unbalanced relationship, which nonetheless allows capitalists of both imperialist and dependent regions to profit, has been reproduced in successive international divisions of labor in the world economy and continues to inform the day-to-day life of Latin American workers and their struggles. Written during an upsurge of class struggle in the region in the 1970s and published here in English for the first time, the revelations inscribed in this foundational essay are proving more relevant than ever. *The Dialectics of Dependency* is an internationalist contribution from one Latin American Marxist to dispossessed and oppressed people struggling the world over and a gift to those who struggle from within the recesses of present-day imperialist centers, nourishing today's efforts to think through the definition of revolution on a global scale.

Hacer la revolución Aldo Marchesi, 2019-11-20

Como contar el ímpetu revolucionario de los años sesenta y setenta desde un tiempo que no es revolucionario. Como capturar un clima de poca radicalización que todavía produce preguntas y dudas en la discusión contemporánea. Siguiendo la trayectoria de militantes argentinos, chilenos, uruguayos, brasileños y bolivianos, Aldo Marchesi estudia el nacimiento y la expansión de una red de organizaciones de jóvenes militantes de izquierda que, al calor de la Revolución cubana y de la polarización ideológica de la Guerra Fría, promovieron la violencia política y las estrategias transnacionales como nuevos caminos para alcanzar el cambio social. Los movimientos de la nueva izquierda estaban convencidos de que la izquierda tradicional era incapaz de generar situaciones revolucionarias y de resistir el avance del autoritarismo y la hegemonía estadounidense en América Latina. Así, confiaron en la lucha armada y construyeron repertorios de protesta y de acción colectiva novedosos como la táctica de la guerrilla urbana o el exilio en el Chile de Salvador Allende en la Argentina peronista entre 1973 y 1976 como parte de una estrategia de lucha continental. Desde un

enfoque original sino que lo convierte en una obra de referencia actualizada sobre el tema Hacer la revolución ofrece piezas nuevas decisivas para entender la historia de la izquierda el surgimiento del autoritarismo en la región y el papel activo de las periferias en los países centrales Porque no sólo cuenta los años de la pica revolucionaria los años del fracaso y el repliegue y el tiempo de la adaptación a la nueva coyuntura democrática cuando las preguntas por la igualdad y el socialismo siguen vigentes sino que además revela el lugar que ocupó el Cono Sur sus figuras icónicas sus debates sus opciones políticas en la revuelta global de los sesenta
