

Short Essay

Favorite School Subject

My favorite school subject is science. I like it because it helps me understand the world around me. Science is full of experiments and discoveries. I enjoy learning about animals, plants, and how things work. My favorite part is when we do experiments in the lab. It's fun to see how things change and react when we mix different materials.

Science also teaches us about space, the stars, and the planets. I love thinking about how big the universe is and wondering what might be out there. I find it amazing how scientists discover new things every day and help improve our lives.

I also like learning about the Earth and how we need to take care of it. Topics like recycling, saving water, and protecting nature are important. Science makes me want to be a better person and help the environment.

Science is not just about facts; it's about asking questions and finding answers. I enjoy reading about new discoveries and thinking about how things work. That's why science is my favorite subject.

Subject Is Story:

The Caribbean Story Finder Sharon Barcan Elswit, 2017-11-02 The Caribbean islands have a vibrant oral folklore In Jamaica the clever spider Anansi who outsmarts stronger animals is a symbol of triumph by the weak over the powerful The fables of the foolish Juan Bobo who tries to bring milk home in a burlap bag illustrate facets of traditional Puerto Rican life Conflict over status identity and power is a recurring theme in a story from Trinidad a young bull raised by his mother in secret challenges his tyrannical father who has killed all the other males in the herd One in a series of folklore reference guides by the author this volume shares summaries of 438 tales some in danger of disappearing retold in English and Creole from West African European and slave indigenous cultures in 24 countries and territories Tales are grouped in themed sections with a detailed subject index and extensive links to online sources

Teacher Subject Identity in Professional Practice Clare Brooks, 2016-03-31 Teacher Subject Identity in Professional Practice focuses on a key but neglected element of a teacher's identity that of their subject expertise Studies of teachers professional practice have shown the importance of a teacher's identity and the extent to which it can affect their resilience commitment and ultimately their effectiveness Drawing upon narrative research undertaken with a range of teachers over a period of 14 years the book explores how subject expertise can play a significant role in teacher identity acting as a professional compass guiding teachers at all levels of their professional practice It reveals powerful individual stories of meaning making which highlight the dynamic importance of teachers subject expertise The book's metaphor of a professional compass goes to the heart of teacher professionalism and provides a valuable mechanism to enable teachers to respond to challenges they face in their daily practice It enables teachers to consider the moral dimensions of their practice and can constitute a significant component in professional formation and identity Throughout the book the importance of subject expertise for teachers professional practice is explored at a range of scales from the classroom to broad education policy and at different stages of a teacher's career which offers readers a deeper understanding of the importance of subject expertise for teachers Teacher Subject Identity in Professional Practice makes a significant contribution to an under researched area It identifies the role and significance of teachers subject expertise as a dimension of their teacher identity The book is key reading for teacher educators policy makers and researchers with an interest in teachers professional development and practice

The Latin American Story Finder Sharon Barcan Elswit, 2015-10-07 Anything is possible in the world of Latin American folklore where Aunt Misery can trap Death in a pear tree Amazonian dolphins lure young girls to their underwater city and the Feathered Snake brings the first musicians to Earth One in a series of folklore reference guides an invaluable resource School Library Journal this book features summaries and sources of 470 tales told in Mexico Central America and South America a region underrepresented in collections of world folklore The volume sends users to the best stories retold in English from the Inca Maya and Aztec civilizations Spanish and Portuguese missionaries and colonists African slave cultures indentured servants

from India and more than 75 indigenous tribes from 21 countries The tales are grouped into themed sections with a detailed subject index *Human Understanding as Problem* Jesús Padilla Gálvez, Margit Gaffal, 2018-11-05 The problems associated with understanding come to light in many facets of our lives This volume is dedicated to describing these facets and clarifying problems related to levels of comprehension conceptual analysis understanding oneself and the other as well as cultural aspects of understanding The authors address the topic in different theoretical frames such as hermeneutics phenomenology transcendental and analytic philosophy *Oppression* Tadesuz Grygier, 2013-04-15 Published in 1998 Oppression is a valuable contribution to the field of Sociology and Social Policy The Story of Music and Musicians Lucy Cecil Lillie, 1886 **Ethics, Knowledge and Truth in Sports Research** Graham McFee, 2009-12-16 The study of sport is characterised by its inter disciplinaryity with researchers drawing on apparently incompatible research traditions and ethical benchmarks in the natural sciences and the social sciences depending on their area of specialisation In this groundbreaking study Graham McFee argues that sound high level research into sport requires a sound rationale for one s methodological choices and that such a rationale requires an understanding of the connection between the practicalities of researching sport and the philosophical assumptions which underpin them By examining touchstone principles in research methodology such as the contested gold standard of voluntary informed consent in the natural sciences and the postmodern denial of truth in the social sciences McFee demonstrates that epistemology and ethics are inextricably linked Drawing on a wide range of examples from the laboratory to the sports field McFee explores the concepts of knowledge and truth in sports research and makes a powerful case for a philosophical deepening of our approach to method and methodology in sport This book is important reading for all advanced students and researchers working in sport exercise and related disciplines The Story of Mathematics Walter Denham Larrett, 1926 **New Essentials of English, Higher Grades** Henry Carr Pearson, Mary Frederika Kirchwey, 1928 **The Story of Fanny Lillian Ballou** Lillian E. Ballou, 1922
