The Map of Meaningful Work (2e) Marjolein Lips-Wiersma, Lani Morris, 2017-10-30 This book introduces the Map of Meaning which provides a clear simple and profound framework of the dimensions and process of living and working meaningfully The Map of Meaning is based on over 20 years research into the insights and practice of ordinary people as they search for lose and find meaning Incorporating the ideas of philosophers psychologists and sociologists this book describes how human beings wrestle with and answer questions such as What gives my life and work meaning How can I balance inspiration and reality and maintain positive momentum and How do we integrate meaningfulness into our workplaces Innate human knowledge is captured in a practical model that makes understanding and working with issues of meaning clear and accessible to everyone At an individual level this book helps people to define and stay in contact with what is most important to them as they grapple with the real problems of daily life It shows how they can stay in charge of keeping the human search for meaning alive especially in the face of the challenges that exist in organizational life Because the dimensions of meaning are shared the second half of the book focuses on how we can bring an awareness of what creates meaningful work into our thinking about the practice and design of organisations The authors recognize that in the current economic context a simple yet profound guide for humanity is essential precisely because organizational life has become so intensely directed towards a singular economic goal They argue that it is vital that people have an easy powerful way to reclaim the significance of meaning in their working lives both individually and at a whole of organization level Updated with new chapter material and case studies this second edition offers profound insights for anyone who is interested in creating more meaning and purpose in work and organizations from a CEO to a blue collar worker or consultant It is for those searching for ways to re energize their roles or change their careers It is for anyone who firmly believes that it must be possible to align our deeper life purposes with our daily actions in the workplace It is for anyone who is committed to creating workplaces that support and enable the experience of work that feels worth doing

Understanding New Perspectives of Spirituality Edie Lanphar, Agata Wilczek, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2015 This book deals with the rapidly developing field of spirituality Although having a singularity of focus the chapters have been written by a cross cultural and international set of researchers who discuss critical issues from an interdisciplinary perspective Thus while a broad range of critical aspects emerge the chapters are threaded together by the concept of spirituality as a lone walk While alone the spiritual journey is also deeply connected to others As a deeply human experience the chapters in this book therefore reflect the prismatic viewpoints that form the understandings and experiences of the spiritual walk This book challenges the reader to start to understand the apparent ambiguity this appears to bring to researchers and practitioners Rather than a roadblock to understanding the multiple frames and facets this brings it is instead a rich field for the exploration of the human condition

New Perspectives on African-Centred Education in Canada George Jerry Sefa Dei, Arlo Kempf, 2013 New Perspectives on African Centred Education in Canada is the first study of African centred schooling in the Canadian context Starting with an in depth look at the creation of an Africentric public school within the Toronto District School Board it tells the story of the movement behind that school s creation and lays bare a rich history of activism organization and resistance on the part of numerous African Canadian communities and their allies The book presents a critical overview of the issues facing racialized students and offers a unique vision of African centred education as a strategy for student engagement and social transformation The authors well known public commentators on African centred education in Canada offer a comprehensive analysis of the media controversy surrounding African centred schools as well as candid reflections on the personal challenges of fighting a largely unpopular battle
