Sudan The Reconquest Reappraised:

Sudan Edward M. Spiers, 1998 To commemorate Kitchener's Anglo Egyptian army victory at the battle of Omdurman in 1888 11 historians have produced a reappraisal of the reconquest and its international repercussions **British Military Operations in Egypt and the Sudan** Harold E. Raugh Jr., 2008-05-02 The British Army's campaigns in Egypt and the Sudan from 1882 to 1899 were among the most dramatic and hard fought in British military history In 1882 the British sent an expeditionary force to Egypt to quell the Arabic Revolt and secure British control of the Suez Canal its lifeline to India The enigmatic British Major General Charles G Gordon was sent to the Sudan in 1884 to study the possibility of evacuating Egyptian garrisons threatened by Muslim fanatics the dervishes in the Sudan While the dervishes defeated the British forces on a number of occasions the British eventually learned to combat the insurrection and ultimately largely through superior technology and firepower vanquished the insurgents in 1898 **British Operations in Egypt and the Sudan A Selected Bibliography** enumerates and generally describes and annotates hundreds of contemporary current and hard to find books journal articles government documents and personal papers on all aspects of British military operations in Egypt and the Sudan from 1882 to 1899 Arranged chronologically and topically chapters cover the various campaigns focusing on specific battles leading military personalities and the contributions of imperial nations as well as supporting services of the British Army This definitive volume is an indispensable reference for researching imperialism colonial history and British military operations leadership and tactics **Engines for empire** Edward Spiers, 2017-03-01 *Engines for Empire* examines the use of the railway by the British army from the 1830s to 1914 a period of domestic political strife and unprecedented imperial expansion The book uses a wide array of sources and images to demonstrate how the Victorian army embraced this new technology how it monitored foreign wars and how it came to use the railway in both support and operational roles The British army's innovation is also revealed through its design and use of armoured trains the restructuring of hospital trains and in its capacity to build and repair railway track bridges and signals under field conditions This volume provides insights on the role of railways in imperial development as a focus of social interaction between adversaries and as a means of projecting imperial power It will make fascinating reading for students academics and enthusiasts in military and imperial history Victorian studies railway history and colonial warfare **Battle Story: Omdurman 1898** William Wright, 2011-11-30 The battle took place at Kerreri 11km north of Omdurman in the Sudan Kitchener commanded a force of 8 000 British regulars and a mixed force of 17 000 Sudanese and Egyptian soldiers He arrayed his force in an arc around the village of Egeiga close to the bank of the Nile where a gunboat flotilla waited in support facing a wide flat plain with hills rising to the left and right The British and Egyptian cavalry were placed on either flank Al Taashi's followers known as Ansar and sometimes referred to as Dervishes numbered around 50 000 including some 3 000 cavalry In a few hours and at a loss of less than 400 officers and men killed and wounded the Anglo Egyptian army defeated the 50 000 brave tribesmen who

charged their enemy regardless of the hail of Maxim bullets many of them armed only with spears swords and ancient chainmail armour In concise detail with orders of battle maps and over fifty images the author shows how Omdurman was a superb example of tactics in warfare First hand accounts from both sides help the reader to understand all the horrors and glory of that day including the famous charge of the 21st Lancers often called the last great cavalry charge of the British Army This was arguably the height of British Empire military dominance The Muslim Majority Robin

Hadaway,2021-09-15 More than 70 percent of Muslims worldwide practice folk Islam a syncretistic mix of theologically orthodox Islam and traditional religious beliefs and practices The Muslim Majority is unlike many published works on evangelism to Muslims which argue for either apologetic or contextualized bridge approaches These approaches are often ineffective in reaching adherents of popular Islam Instead author and missiologist Robin Hadaway outlines a contextual approach that addresses the unique perspective of popular Islam Hadaway explains the differences between folk Islam and orthodox Islam and explores best practices for reaching the vast majority of Muslims with the gospel of Jesus Christ

Slaves of Fortune Ronald M. Lamothe,2011 The Anglo Egyptian re conquest of Sudan Churchill s River War has been well chronicled from the British point of view but we still know little about its front line troops the Sudanese soldiers of the Egyptian Army Making use of unpublished primary sources and published material located in the United Kingdom and Sudan Slaves of Fortune provides an historiographic correction It argues that nineteenth century Sudanese slave soldiers were social beings and historical actors shaping both European and African destinies just as their own lives were being transformed by imperial forces Jacket *The Boer War* John Gooch,2013-10-23 This collections of essays by leading British

and South African scholars looking at the Boer War focuses on three aspects how the British Military functioned the role of the Boers Afrikaners and Zulus and the media presentation of the war to the public *Ambiguities of Empire* Robert Holland,Sarah Stockwell,2013-09-13 This book comprises essays offered by friends colleagues and former students in tribute to Andrew Porter on the occasion of his retirement from the Rhodes Chair in Imperial History at the University of London The contributors including many distinguished historians explore through a variety of case studies ambiguities of empire and of imperial and quasi imperial relationships reflecting important themes in Professor Porter s own writing Whilst the range of articles reflects the breadth of Andrew Porter s scholarly collaborations and interests the chapters focus in particular on two aspects of imperial history which have been the subject of his particular attention religion and empire and the end of empire The book contains original pieces on the history of British imperialism currently the subject of considerable scholarly attention The book will be invaluable to students and scholars of empire religion and colonialism This book was published as a special issue of the Journal of Imperial and Commonwealth History British Muslim Fictions C. Chambers,2012-03-09

Through interviews with leading writers including Ahdaf Soueif and Hanif Kureishi this book analyzes the writing and opinions of novelists of Muslim heritage based in the UK Discussion centres on writers work literary techniques and

influences and on their views of such issues as the hijab the war on terror and the Rushdie Affair Islam and the European Empires David Motadel, 2014-09-05 At the height of the imperial age European powers ruled over most parts of the Islamic world The British French Russian and Dutch empires each governed more Muslims than any independent Muslim state European officials believed Islam to be of great political significance and were quite cautious when it came to matters of the religious life of their Muslim subjects In the colonies they regularly employed Islamic religious leaders and institutions to bolster imperial rule At the same time the European presence in Muslim lands was confronted by religious resistance movements and Islamic insurgency Across the globe from the West African savanna to the shores of Southeast Asia Muslim rebels called for holy war against non Muslim intruders Islam and the European Empires presents the first comparative account of the engagement of all major European empires with Islam Bringing together fifteen of the world's leading scholars in the field the volume explores a wide array of themes ranging from the accommodation of Islam under imperial rule to Islamic anti colonial resistance A truly global history of empire the volume makes a major contribution not only to our knowledge of the intersection of Islam and imperialism but also more generally to our understanding of religion and power in the modern world
