Telling Stories Taking Risks:

Taking Risks Julie Shayne, 2014-06-16 *Taking Risks* offers a creative interdisciplinary approach to narrating the stories of activist scholarship by women. The essays are based on the textual analysis of interviews, oral histories, ethnography, video, storytelling, and theater. The contributors come from many disciplinary backgrounds including theater, history, literature, sociology, feminist studies, and cultural studies. The topics range from the underground library movement in Cuba, femicide in Ju rez, community radio in Venezuela, video archives in Colombia, exiled feminists in Canada, memory activism in Argentina, sex worker activists in Brazil, rural feminists in Nicaragua, to domestic violence organizations for Latina immigrants in Texas. Each essay addresses two themes: telling stories and taking risks. The authors understand women activists across the Americas as storytellers who, along with the authors themselves, work to fill the Latin American and Caribbean studies archives with histories of resistance. In addition to sharing the activists' stories, the contributors weave in discussions of scholarly risk-taking to speak to the challenges and importance of elevating the storytellers and their histories.

Transformational Preaching

David M. Brown, 2003-02 *Transformational Preaching* Theory and practice is a comprehensive textbook for the beginning student of preaching, the graduate student in pulpit discourse, or the seasoned preacher. Seeking to reclaim the pulpit for biblical preaching, the book counteracts the popular teaching approach that is common today and argues that preaching must be persuasive rather than informative; that the preacher is central to the act of preaching; and that through the preaching event, both preacher and listener together fashion the message and its meaning. Both theoretical and highly practical, the book offers a challenging look at all aspects of the preaching ministry. It contextualizes preaching in pastoral ministry and congregational worship but most significantly argues that the practice of preaching must be informed and driven by theory. As such, the book draws from a wide perspective of disciplines including biblical theology, classical rhetoric, contemporary human communication, public discourse, persuasion, linguistics, performance, and orality. The book's wealth of practical guidelines for every step of sermon development encourages students to apply general principles within their own contexts of ministry.
