Latest News of Medjugorje Number 10 June, 1991** Rene Laurentin,1991 **Ten Years of Apparitions** Rene Laurentin,1991-12-01 *The Credibility of Science and Religion* Paul Weingartner,2025-01-27 Weingartner compares criteria and basic assumptions for the credibility of scientific and religious belief systems It is shown that mankind has access to basic knowledge about a higher spiritual power and knowledge by conscience about what is obligatory or forbidden This is defended by further axiomatizations on basic terms as natural goods natural and moral law and conscience Scientific and religious belief systems are then compared thoroughly and by logical deduction and verisimilitude One main argument is that every kind of belief system has an upper and a lower bound of credibility yet a degree of credibility that leads to the impossibility of rational justification for scientific belief systems must not be required from religious belief systems Further topics are internal and external consistency local refutation mutual complementation between religion and theory of evolution as well as a comparison of the five world religions leading to general features of religion It is shown that one main yet basic axiom of morality is the principle of charity Finally the book concludes with the credibility requirements of science towards religion and those of religion towards science Paperbound Books in Print 1995 Reed Reference Publishing,R5ference Reed,1995-12 **Subject Guide to Children's Books in Print 1997** Bowker Editorial Staff,R R Bowker Publishing,1996-09 **Subject Guide to Books in Print** ,1997 Churches In-between Stéphanie Mahieu,Vlad Naumescu,2008 Eastern Rite Catholic Churches occupy an ambiguous position between two religious worlds and challenge the idea of a sharp religious and political dichotomy between Eastern and Western Europe After decades of repression under socialism the churches known popularly in Central Europe as Greek Catholic have successfully undertaken a process of revitalisation This has been marked by competition with other churches both over material properties and over people s souls How can a Greek Catholic identity be recreated Can these churches provide a distinctive product for the new religious marketplace By exploring such questions the contributors to this volume shed fresh light on the social and political shaping of religious phenomena in the era of postsocialism and also on more general issues of belief practice transmission and syncretism *Disciplining Modernism* P. Caughie,2016-01-26 A Poiret dress a Catholic shrine in France Thomas Wallis s Hoover Factory building an Edna Manley sculpture the poetry of Bei Dao the internal combustion engine what makes such artifacts modernist *Disciplining Modernism* explores the different ways disciplines conceive modernism and modernity undisciplining modernist studies in the process Apparition Fever Tine Van Osselaer,2025-05-13 In the early 1930s a wave of Marian apparitions cases in which visionaries reported seeing and receiving messages from the Virgin Mary swept over Belgium With over forty apparition sites and hundreds of visionaries the Belgian apparitions often attended by crowds of onlookers were unrivalled in scope and complexity and they confronted

Catholics and others with a question How do you decide what you believe Apparition Fever explores the Belgian apparitions from initial reports to the eventual recognition of two episodes in the 1940s It shows how knowledge was formed at all levels among the bystanders attending the sites to the medical experts who studied the visionaries and the clerical authorities who evaluated the authenticity of the apparitions Tine Van Osselaer examines how these different perspectives converged and influenced each other whose authority was accepted or challenged and how the public character of the events affected their evaluation Apparition Fever reveals that the public setting of Marian apparitions and the religious enthusiasm they triggered are not novel challenges for the Catholic Church On the contrary they have heavily influenced the evaluation of apparitions since the early twentieth century
