A European Quantitative Study Pille Valk, Gerdien Bertram-Troost, Markus Friederici, Céline Béraud, 2009 Religion

is on the European agenda again The secularisation paradigm has lost its explanatory power and the newly coined term post secularism is used to describe the realisation that in the current social transformation religion cannot be ignored any longer The quantitative study presented in this book is part of the research effort by the REDCo project REDCo is the abbreviation for Religion in Education A contribution to Dialogue or a Factor of Conflict in Transforming Societies of European Countries The project brought together nine research teams from eight European countries England Estonia France Germany The Netherlands Norway Russia and Spain The research involved interdisciplinary cooperation between specialists in the different academic fields of education religious education sociology political science anthropology psychology theology and religious studies The book offers valuable interpretations and inspirations on the question how the students in the 14 16 year age group in Europe see the ir relevance of religions for dialogue and conflict in their daily lives in the school environment and in society as a whole The young respondents of the quantitative study are clearly aware that the diversity of religious and non religious worldviews is the reality of the European contexts they have to manage within Most of them are convinced that religion must be addressed in schools as it is too important as factor in social life and for the coexistence of people from different cultural and religious backgrounds throughout Europe to be ignored

On the Cancer Frontier Paul Marks,James Sterngold,2014-03-11 In 1950 a diagnosis of cancer was all but a death sentence Mortality rates only got worse and as late as 1986 an article in the New England Journal of Medicine lamented We are losing the war against cancer Cancer is one of humankind s oldest and most persistent enemies it has been called the existential disease But we are now entering a new and more positive phase in this long campaign While cancer has not been cured and a cure may elude us for a long time yet there has been a revolution in our understanding of its nature Years of brilliant science have revealed how this individualistic disease seizes control of the foundations of life our genes and produces guerrilla cells that can attack and elude treatments Armed with those insights scientists have been developing more effective weapons and producing better outcomes for patients Paul A Marks MD has been a leader in these efforts to finally control this devastating disease Marks helped establish

the strategy for the war on cancer in 1971 as a researcher and member of President Nixon's cancer panel. As the president and chief executive officer for nineteen years at the world's pre-eminent cancer hospital, the Memorial Sloan Kettering Cancer Center, he was instrumental in ending the years of futility. He also developed better therapies that promise a new era of cancer containment. Some cancers like childhood leukemia and non-Hodgkin's lymphoma that were once deadly conditions are now survivable, even curable. New steps in prevention and early diagnosis are giving patients even more hope. On the Cancer Frontier is Marks' account of the transformation in our understanding of cancer and why there is growing optimism in our ability to stop it.

Everyday Creativity Kirin Narayan, 2016-11-22 Kirin Narayan's imagination was captured the very first time that as a girl visiting the Himalayas she heard Kangra women join their voices together in song. Returning as an anthropologist, she became fascinated by how they spoke of singing as a form of enrichment, bringing feelings of accomplishment, companionship, happiness, and even good health, all benefits of the everyday creativity she explores in this book. Part ethnography, part musical discovery, part poetry, part memoir, and part unforgettable portraits of creative individuals, this unique work brings this remote region in North India alive in sight and sound while celebrating the incredible powers of music in our lives. With rare and captivating eloquence, Narayan portrays Kangra songs about difficulties on the lives of goddesses and female saints as a path to well-being. Like the intricate geometries of mandala patterns drawn in courtyards or the subtle balance of flavors in a meal, well-crafted songs offer a variety of deeply meaningful benefits as a way of making something of value as a means of establishing a community of shared pleasure and skill as a path through hardships and limitations and as an arena of renewed possibility. *Everyday Creativity* makes big the small world of Kangra song and opens up new ways of thinking about what creativity is to us and why we are so compelled to engage it.
