Tepper Isn't Going Out:

Tepper Isn't Going Out Calvin Trillin, 2002-01-15 Murray Tepper would say that he is an ordinary New Yorker who is simply trying to read the newspaper in peace But he reads while sitting behind the wheel of his parked car and his car always seems to be in a particularly desirable parking spot Not surprisingly he is regularly interrupted by drivers who want to know if he is going out Tepper isn't going out Why not His explanations tend to be rather literal the indisputable fact for instance that he has twenty minutes left on the meter Tepper's behavior sometimes irritates the people who want his spot Is that where you live Is that car rent controlled It also irritates the mayor Frank Ducavelli known in tabloid headlines as Il Duce who sees Murray Tepper as a harbinger of what His Honor always calls the forces of disorder But once New Yorkers become aware of Tepper some of them begin to suspect that he knows something they don't know And an ever increasing number of them are willing to line up for the opportunity to sit in his car with him and find out Tepper Isn't Going Out is a wise and witty story of an ordinary man who perhaps innocently changes the world around him **BONUS** This edition contains an excerpt from Calvin Trillin's *Quite Enough* of Calvin Trillin

environment and communities Falconer also opens the door on British and Argentine car cultures and considers the road ahead for China and India nations with increasingly American attitudes As billions grab their keys can we avoid carnageddon A fascinating survey of the automobile and its effect on society A fun book about a serious topic Winnipeg Free Press Essential reading for any Canadian intrigued by the conundrum of finding better ways to get from here to there Spacing magazine

High Cost of Free Parking Donald Shoup, 2021-02-25 Off street parking requirements are devastating American cities So says the author in this no holds barred treatise on the way parking should be Free parking the author argues has contributed to auto dependence rapid urban sprawl extravagant energy use and a host of other problems Planners mandate free parking to alleviate congestion but end up distorting transportation choices debasing urban design damaging the economy and degrading the environment Ubiquitous free parking helps explain why our cities sprawl on a scale fit more for cars than for people and why American motor vehicles now consume one eighth of the world's total oil production But it doesn't have to be this way The author proposes new ways for cities to regulate parking namely charge fair market prices for curb parking use the resulting revenue to pay for services in the neighborhoods that generate it and remove zoning requirements for off street parking

Parking and the City Donald Shoup, 2018-04-11 Donald Shoup brilliantly overcame the challenge of writing about parking without being boring in his iconoclastic 800 page book *The High Cost of Free Parking* Easy to read and often entertaining the book showed that city parking policies subsidize cars encourage sprawl degrade urban design prohibit walkability damage the economy raise housing costs and penalize people who cannot afford or choose not to own a car Using careful analysis and creative thinking Shoup recommended three parking reforms 1 remove off street parking requirements 2 charge the right prices for on street parking and 3 spend the meter revenue to improve public services on the metered streets *Parking and the City* reports on the progress that cities have made in adopting these three reforms The successful outcomes provide convincing evidence that Shoup's policy proposals are not theoretical and idealistic but instead are practical and realistic The good news about our decades of bad planning for parking is that the damage we have done will be far cheaper to repair than to ignore The 51 chapters by 46 authors in *Parking and the City* show how reforming our misguided and wrongheaded parking policies can do a world of good Read more about parking benefit districts with a free download of Chapter 51 by copying the link below into your browser <https://www.routledge.com/posts/13972>

Paved Paradise Henry Grabar, 2024-05-07 Shortlisted for the Zocalo Book Prize Named one of the best books of the year by The New Yorker and The New Republic Consistently entertaining and often downright funny The New Yorker Wry and revelatory The New York Times A romp packed with tales of anger violence theft lust greed political chicanery and transportation policy gone wrong highly entertaining The Los Angeles Times An entertaining enlightening and utterly original investigation into one of the most quietly influential forces in modern American life the humble parking spot Parking quite literally has a death grip on America each year a shocking number of Americans kill one another over parking

spots and we routinely do ridiculous things for parking contorting our professional social and financial lives to get a spot Since the advent of the car we have deformed our cities in a Sisyphean quest for car storage and as a result much of the nation's most valuable real estate is now devoted to empty vehicles Parking determines the design of new buildings and the fate of old ones traffic patterns and the viability of transit neighborhood politics and municipal finance and the overall quality of public space Is this really the best use of our finite resources Is parking really more important than everything else In a beguiling and absurdly hilarious mix of history politics and reportage Slate staff writer Henry Grabar brilliantly surveys the nation's parking crisis revealing how the compulsion for car storage has exacerbated some of our most acute problems from housing affordability to the accelerating global climate disaster and ultimately how we can free our cities from parking's cruel yoke
