Terence - Eunuchus (The Eunuch)

Terence, 2019-06-24 Publius Terentius Afer is better known to us as the Roman playwright Terence Much of his life especially the early part is either unknown or has conflicting sources and accounts His birth date is said to be either 185 BC or a decade earlier 195 BC His place of birth is variously listed as in or near Carthage or in Greek Italy to a woman taken to Carthage as a slave It is suggested that he lived in the territory of the Libyan tribe that the Romans called Afri near Carthage before being brought to Rome as a slave Probability suggests that it was there in North Africa several decades after the destruction of Carthage by the Romans in 146 BC at the end of the Punic Wars that Terence spent his early years One reliable fact is that he was sold to P Terentius Lucanus a Roman senator who had him educated and impressed by his literary talents freed him These writing talents were to ensure his legacy as a playwright down through the millennia His comedies partially adapted from Greek plays of the late phases of Attic Comedy were performed for the first time around 170 160 BC All six of the plays he has known to have written have survived Indeed thanks to his simple conversational Latin which was both entertaining and direct Terence's works were heavily used by monasteries and convents during the Middle Ages and The Renaissance Scribes often learned Latin through the copious copying of Terence's texts Priests and nuns often learned to speak Latin through re enactment of Terence's plays Although his plays often dealt with pagan material the quality and distinction of his language promoted the copying and preserving of his text by the church This preservation enabled his work to influence a wide spectrum of later Western drama When he was 25 or 35 depending on which year of birth you ascribe too Terence travelled to Greece but never returned It has long been assumed that he died at some point during the journey Of his own family nothing is known except that he fathered a daughter and left a small but valuable estate just outside Rome His most famous quotation reads *Homo sum humani nihil a me alienum puto* or I am human and I think nothing human is alien to me

The Illustrated Afterlife of Terence's Comedies (800-1200) Beatrice Radden Keefe, 2021-08-30 Widely read as school texts the comedies by the Roman dramatist Terence have come down to us in hundreds of medieval copies Fourteen of the manuscripts produced between 800 and 1200 were given some kind of illustration In this volume Beatrice Radden Keefe explores the semiotics of the imagery found in the earliest illustrated Terence manuscripts and its relationship to the iconography of comedy and theatre from antiquity She examines six further manuscripts to show how later illustrators abandoned this imagery to varying degrees finding new emphases and creating new layers of meaning Illustrators of Terence it is demonstrated here brought a range of interests to illustrating the comedies clarifying their narrative incorporating social commentary and moralisation and linking them with Christian allegorical traditions

Eunuchus Terence, 1999-02-04

Terence's *Eunuchus* The *Eunuch* was his most successful play in his lifetime but has been surprisingly neglected by modern commentators In this first ever full scale commentary in English Professor Barsby provides a thorough examination of the

play in terms of its literary and dramatic qualities its staging and its relationship to the two plays of Menander s on which it is based The commentary includes scene by scene discussions which bring out the development of character and plot and the notes offer a close study of Terence s language in comparison with that of his predecessor Plautus A full introduction puts Terence in his historical and literary context and there are two appendices one on metre and the other giving text and translation of the remains of Menander s Eunouchos and Kolax **Cicero and the Early Latin Poets** Hannah

Čulík-Baird,2022-04-28 The writings of Cicero contain hundreds of quotations of Latin poetry This book examines his citations of Latin poets writing in diverse poetic genres and demonstrates the importance of poetry as an ethical historical and linguistic resource in the late Roman Republic Hannah ul k Baird studies Cicero s use of poetry in his letters speeches and philosophical works contextualizing his practice within the broader intellectual trends of contemporary Rome Cicero s quotations of the classic Latin poets such as Ennius Pacuvius Accius and Lucilius are responsible for preserving the most significant fragments of verse from the second century BCE The book also therefore examines the process of fragmentation in classical antiquity with particular attention to the relationship between quotation and fragmentation The Appendices collect perceptible instances of poetic citation Greek as well as Latin in the Ciceronian corpus **Terence - Eunuchus**

A Handbook to the Reception of Greek Drama Betine van Zyl Smit, 2016-02-29 A Handbook to the Reception of Greek Drama offers a series of original essays that represent a comprehensive overview of the global reception of ancient Greek tragedies and comedies from antiquity to the present day Represents the first volume to offer a complete overview of the reception of ancient drama from antiquity to the present Covers the translation transmission performance production and adaptation of Greek tragedy from the time the plays were first created in ancient Athens through the 21st century Features overviews of the history of the reception of Greek drama in most countries of the world Includes chapters covering the reception of Greek drama in modern opera and film

Collected Works of Erasmus Desiderius Erasmus, 2016-01-01 These volumes are the first in a series containing works by Erasmus that concern literature and education interests which to him were scarcely separable The aim of Erasmian education was a civilized life expressed in Christian piety and the fulfilment of public and private duties and embellished by learning and literature Towards these ends the soundest training for youth was what Erasmus often called *bonne litterae* good letters a literary and rhetorical training based on Greek and Latin authors For centuries the classical curriculum was the core of liberal education and Erasmus was long regarded as its exemplar Though never a university teacher except briefly at Cambridge 1511-14 he was a teacher of teachers through his treatises on pedagogy and rhetoric and his many works of scholarship The four works presented here in annotated translations are characteristic expressions of his dedication to learning and his confidence in the values of classical literature for the modern world of his time *Antibarbari* 1520 translated and annotated by Margaret Mann Phillips is a defence of the humanities against ignorant and misguided critics who question both their supposed worth and the appropriateness of pagan writings for Christian pupils The reply of Erasmus becomes a manifesto on behalf of reason scholarship and literature As for paganism he insists that if secular knowledge is used properly it cannot harm but must help Christians None of the liberal disciplines is Christian because they all antedated

Christianity yet they all concern Christ because they can be put to Christian uses *Parabola* 1514 translated and annotated by R A B Mynors a work that contributes eminently to style is a collection of similitudes drawn from observations of men customs and nature Many are culled from Plutarch and Seneca but for those from Seneca and from Aristotle the moral applications are added by Erasmus As an exercise in the rhetoric of moral philosophy many jewels in one small box Erasmus terms it this book quickly became popular and long remained so *De copia* 1512 translated and annotated by Betty I Knott is not a plan for the entire curriculum but a treatise on the abundant or rich style in writing and speaking Latin a guide to attaining fluency and variety in discourse As a manual for students *De copia* broke new ground It was a remarkably successful work used in schools in many lands for generations From 1312 to 1600 more than 130 printings are recorded *De ratione studii* 1312 translated and annotated by Brian McGregor furnishes a concise but clear exposition of the curriculum text and methods of Erasmus programme for liberal studies in grammar schools Here as in all of his writings on education language is the heart of the matter The main goals are accurate effective expression and communication in Latin though Erasmus expects much besides literature to be learned from the study of literature He emphasizes the necessity for competent and sympathetic teachers Each translation is introduced by the translator and a general introduction by the editor discusses the significance of each of the works its relation to the others and its subsequent fortunes Wallace K Ferguson provides an introductory essay *The Works of Erasmus Volumes 23 and 24 of the Collected Works of Erasmus series Two volume set*
