While medical advances have given us the gift of extending life, meaning that a loved one could survive months or even years before dying, it has also changed the way we grieve. Published in collaboration with Harvard Health Publications, *Saying Goodbye* guides you through this complex journey, offering hope and healing for those who may be living with death for an extended period of time.

If the established goal of a correctional facility is to rehabilitate, then it is imperative that the rehabilitation is effective and does not simply serve as a political buzz word. The timing of releasing this book coincides with a real movement in the United States supported by both conservative and liberal advocates and foundations to decrease the size of the prison population by returning more offenders to their communities. The text examines 14 specific populations and how to effectively treat them in order to better serve them and our communities. **Medical Tourism** Tzung-Cheng (TC) Huan, 2025-03-28 This book offers a comprehensive exploration of the evolving world of medical tourism.
