Terms Of Cultural Criticism The Frankfurt School Existentialism Poststructuralism:

The Terms of Cultural Criticism Richard Wolin, 1992 Despite their differences in origin the three influential schools of twentieth century continental cultural criticism the Frankfurt School existentialism and poststructuralism have long been treated as an ensemble and with critical hesitancy Examining these schools as responses to the apparent collapse of Western civilization in the twentieth century and as formidable intellectual challenges to the cultural legacies of the Enlightenment this book provides a productive base for criticism and broadens our understanding of their histories and reception

The Frankfurt School Revisited Richard Wolin, 2013-05-13 This volume is a collection of essays by Richard Wolin a leading political theorist and intellectual historian It is the follow up to Wolin's two recent widely acclaimed books *Heidegger's Children* and *The Seduction of Unreason* In those books he explored the legacy of Martin Heidegger and his impact on some of his most influential and notable students He dealt particularly with the effect that Heidegger's subsequent embrace of fascism and National Socialism had on these students Delving further in his next book Wolin explored the question of why philosophers and intellectuals have been drawn to antiliberal antidemocratic fascism The essays in this book are focused on European Political Thought particularly with figures associated with the Frankfurt School The collection represents a virtual who's who of European political thinkers with essays on Walter Benjamin Adorno Marcuse Arendt Heidegger Weber Jaspers and Carl Schmitt Moving beyond these thinkers and those books this collection will also include essays on contemporary political issues such as post communist revolutions human rights global democracy the revival of republicanism and religion and public life

Rethinking the Frankfurt School Jeffrey T. Nealon, Caren Irr, 2012-02-01 A reexamination of key Frankfurt School thinkers Benjamin Adorno Horkheimer Marcuse in the light of contemporary theory and cultural studies across the disciplines *Rethinking the Frankfurt School* asks what consequences such a rethinking might have for study of the Frankfurt School on its own terms Ironically contemporary theorists find themselves turning back toward the Frankfurt School precisely for the reasons it was once scorned for a notion of subjects whose desires are less liberated and multiplied than they are produced and regulated by a far reaching very nearly totalizing global culture industry Indeed as new questions concerning globalization and economic redistribution emerge while analyses of identity politics and subjective transgression become less central to contemporary theory and cultural studies the future of the Frankfurt School looks as promising and productive as its past has proven to be

The Frankfurt School, Jewish Lives, and Antisemitism Jack Jacobs, Jack Lester Jacobs, 2015 This book explores the ways in which the Jewish backgrounds of leading Frankfurt School Critical Theorists shaped their lives work and ideas

The Happy Burden of History Andrew Stuart Bergerson, 2011 What can well meaning people do about terror and genocide The more we fight against systems of violence the further we seem to sink into them This book explores the lives and letters of ordinary and intellectual Germans who faced the ethical challenges of the Third Reich Trained in history literary criticism philosophy and theology its four authors look at the role of myths lies non

conformity irony and modeling in cultivating a self They explain how we might use these ordinary strategies of selfhood to bear the burden of historical responsibility and be happy doing Adorno's Poetics of Critique Steven Helmling,2011-10-20

Adorno s Poetics of Critique is a critical study of the Marxist culture critic Theodor W Adorno a founding member of the Frankfurt school and widely regarded today as its most brilliant exponent Steven Helmling is centrally concerned with Adorno s notoriously difficult writing a feature most commentators acknowledge only to set it aside on the way to an expository account of what Adorno is saying By contrast Adorno s complex writing is the central focus of this study which includes detailed analysis of Adorno s most complex texts in particular his most famous and complicated work co authored with Max Horkheimer Dialectic of Enlightenment Helmling argues that Adorno s key motifs dialectic concept negation immanent critique constellation are prescriptions not merely for critical thinking but also for critical writing For Adorno the efficacy of critique is conditioned on how the writing of critique is written Both in theory and in practice Adorno urges a poetics of critique that is every bit as critical as anything else in his critical theory *The Urban Lifeworld* Peter Madsen,Richard Plunz,2005-06-29 Urban conditions are crucial to our experience of modernity and as reflected by art literature and popular culture have influenced contemporary ideas of what urban life is about The Urban Lifeworld contributes to our understanding of the cultural role of cities by offering new insight into the analysis of urban experience Two exceptional cities New York and Copenhagen are the focus of this exploration of cultural representations of urban life which investigates the contrasts between perceptions and formation of the urban lifeworld Integrating sociological aesthetic and anthropological approaches to urban questions this collection of essays presents a new vision of the cityscape which will enrich both academic debate and public life **Erich Fromm and Global Public Sociology** Neil McLaughlin,2023-01-10

As the rise of global right wing populism and Trumpism creates new interest in psycho social writing and popular sociology this timely book tells the story of the rise fall and contemporary revival of the theories of Erich Fromm a 1930s influential and creative public intellectual **Feminism As Radical Humanism** Pauline Johnson,2018-02-06 For Johnson feminism must recognize itself as a humanism in order to avoid certain theoretical quagmires The argument is extremely provocative and even I would say necessary This book is sure to be controversial and of interest to a wide audience in feminist theory I know of no other treatment of feminism and humanism that is so clear cogent and systematic Judith Grant University of Southern California Feminism is currently at an impasse Both the liberation feminism of the 1970 s and the more recent feminism of difference are increasingly faced with the limitations of their own perspectives While feminists today generally acknowledge the need to recognise diversity they lack a coherent framework through which this need can be articulated In *Feminism as Radical Humanism* Pauline Johnson calls for a reassessment of feminism s relationship to modern humanism She argues that despite its very thorough and necessary critique of mainstream formulations of humanist ideals feminism itself remains strongly committed to humanist values Drawing on a broad range of political and intellectual traditions Johnson

demonstrates that only by proudly affirming its own humanist commitments can feminist theory find a way to negotiate the impasse in which it currently finds itself Feminism as Radical Humanism is an important and controversial contribution to feminist theory and to the ongoing debate about the meaning of contemporary humanism Adorno's Poetics of Form Josh Robinson, 2018-05-23 A critical study of the concept of form in Adorno's writings on art and literature Adorno's Poetics of Form is the first book length examination of the elusive deployment of the concept of form in Adorno's writings on art and literature and the first monograph to offer a comprehensive account of the relation of these writings to his broader philosophical project It examines form within the constellation of concepts that exist around it considering how it appears when seen in conjunction with and in opposition to content expression genre and material Illuminated from these angles form is revealed as the site of a complex web of dynamic conceptual interactions The book thus offers a resolution to a problem in Adorno's work that has remained unsolved for several decades and in doing so sets out the consequences of Adorno's poetics for literary and critical theory today
