Terms Of Political Discourse:

The Terms of Political Discourse. William E. Connolly, 1993-09-12 William Connolly presents a lucid and concise defense of the thesis of essentially contested concepts that can well be read as a general introduction to political theory as well as for its challenge to the prevailing understanding of political discourse In Connolly's view the language of politics is not a neutral medium that conveys ideas independently formed but an institutionalized structure of meanings that channels political thought and action in certain directions In the new preface he pursues the implications of this perspective for a distinctive conception of ethics and democracy *Political Discourse Analysis* Robert Butler, 2024-03-05 *Political Discourse Analysis* addresses the challenges facing political actors at all levels of society and across a range of regimes It shows how discursive legitimisation strategies can vary on a continuum ranging from the stabilising effects of institutional discourse and the management of destabilising factors inherent in new types of media to the destabilising potential of rhetorical devices and deliberate de legitimisation strategies used to attack opponents The diverse approaches show how political actors strive to maintain control in the context of democratic deficit and crisis in developed societies while addressing growing global threats to stability in all regimes While many actors seek legitimisation through the institutional structure media or rhetoric others may seek to weaken any opposition to them through de legitimisation In this collection Butler provides the reader with replicable methods that can be adapted to political contexts **Political Discourse in Transition in Europe, 1989-1991** Paul Anthony Chilton, Mikhail Mikha?lovich Il?inski?, Jacob Mey, 1998 The year 1989 brought political upheavals in Central Eastern and Southern Europe the effects of which have not yet ended The political discourse of the Cold War period disintegrated and gave way to competing alternatives The contributors to this book are linguists discourse analysts and social scientists from all corners of the continent whose tools of analysis shed light on the crucial two years of transition during which political concepts and political interaction changed in dramatic and sometimes violent ways *Political Discourse and Conflict Resolution* Katy Hayward, Catherine O'Donnell, 2010-10-04 This book offers new insights into the close relationship between political discourses and conflict resolution through critical analysis of the role of discursive change in a peace process Just as a peace process has many dimensions and stakeholders so the discourses considered here come from a wide range of sources and actors The book contains in depth analyses of official discourses used to present the peace process the discourses of political party leaders engaging or otherwise with it the discourses of community level activists responding to it and the discourses of the media and the academy commenting on it These discourses reflect varying levels of support for the peace process from obstruction to promotion and the role of language in moving across this spectrum according to issue and occasion Common to all these analyses is the conviction that the language used by political protagonists and cultural stakeholders has a profound effect on progression towards peace Bringing together leading experts on Northern Ireland's peace process from a range of academic disciplines including political science sociology linguistics history geography law

and peace studies this book offers new insights into the discursive dynamics of violent political conflict and its resolution

Political Discourse Analysis Isabela Fairclough, Norman Fairclough, 2013-06-17 In this accessible new textbook Isabela and Norman Fairclough present their innovative approach to analysing political discourse Political Discourse Analysis integrates analysis of arguments into critical discourse analysis and political discourse analysis The book is grounded in a view of politics in which deliberation decision and action are crucial concepts politics is about arriving cooperatively at decisions about what to do in the context of disagreement conflict of interests and values power inequalities uncertainty and risk The first half of the book introduces the authors new approach to the analysis and evaluation of practical arguments while the second half explores how it can be applied by looking at examples such as government reports parliamentary debates political speeches and online discussion forums on political issues Through the analysis of current events including a particular focus on the economic crisis and political responses to it the authors provide a systematic and rigorous analytical framework that can be adopted and used for students own research This exciting new text co written by bestselling author Norman Fairclough is essential reading for researchers upper undergraduate and postgraduate students of discourse analysis within English language linguistics communication studies politics and other social sciences Political Discourse

Power of Economic Ideas Peter A. Hall, 2020-11-10 John Maynard Keynes once observed that the ideas of economists and political philosophers both when they are right and when they are wrong are more powerful than is commonly understood The contributors to this volume take that assertion seriously In a full scale study of the impact of Keynesian doctrines across nations their essays trace the reception accorded Keynesian ideas initially during the 1930s and then in the years after World War II in a wide range of nations including Britain the United States France Germany Italy Japan and Scandinavia The contributors review the latest historical evidence to explain why some nations embraced Keynesian policies while others did not At a time of growing interest in comparative public policy making they examine the central issue of how and why particular ideas acquire influence over policy and politics Based on three years of collaborative research for the Social Science Research Council the volume takes up central themes in contemporary economics political science and history The contributors are Christopher S Allen Marcello de Cecco Peter Alexis Gourevitch Eleanor M Hadley Peter A Hall Albert O
